

PRODUCT GUIDE

BOAT LIFTS • DOCKS • WATER ACCESS • ACCESSORIES

Premium marine solutions. Made in Canada. Serving Canada.

BUILT FOR LIFE ON THE WATER

THE RIGHT DESIGN. THE RIGHT SOLUTION.

Premier Solutions Boat Lift & Dock Corp. provides premium marine products designed around the environment, the user and the application. From aluminum elevator lifts and custom docks to shoreline access and accessories, every solution is selected for strength, clean installation and long-term usability.

OUR PRODUCT CATEGORIES

BOAT LIFTS

Aluminum elevator lifts built for tight spaces, side-mount applications and dependable protection.

DOCKS

Custom aluminum docks and platforms with low-maintenance decking and integrated accessories.

WATER ACCESS

Stone steps or aluminum stairs with ThruFlow decking, landings and railings.

ACCESSORIES

Ladders, rails, bumpers, PWC solutions, racks, controls and installation support.

BUILT STRONG. DESIGNED TO PERFORM. MADE IN CANADA.

Matched to the environment, the user, and the application.

ALUMINUM ELEVATOR BOAT LIFTS

ELEVATE YOUR BOAT.

PROTECT YOUR INVESTMENT

Our aluminum elevator lifts support the boat above the water while maximizing usable dock space. The lift angle is matched to water depth and the distance required to reach navigable water.

WHY CHOOSE AN ELEVATOR?

LIMITED SPACE

A space-conscious layout for compact waterfronts.

NARROW CANALS

A strong option where conventional lift footprints are difficult.

SIDE-MOUNT USE

Ideal for applications where the lift must run beside the dock.

FEWER PILES

Can reduce the number of piles required for the lift layout.

BUILT-IN PRODUCT ADVANTAGES

- **Welded aluminum construction**
Strength and clean fabrication.
- **Stainless hardware**
Durability in demanding marine conditions.
- **Deep-groove winders**
Designed for secure and consistent cable tracking.
- **Adjustable cable keepers**
Added control and reliable operation.
- **Nylatron wheel systems**
Quality wheel components on larger-capacity systems.
- **Above-water components**
Reduced exposure and easier maintenance access.

DESIGNED AROUND YOUR WATERFRONT

CUSTOM ALUMINUM DOCKS

BUILD YOUR WATERFRONT

Strong, clean platforms for life on the water.

DOCK OPTIONS & FEATURES

CUSTOM ALUMINUM FRAMES

Built to suit the shoreline, access and intended use.

THRUFLOW DECKING

Low-maintenance decking that allows water and light to pass through.

RAILINGS & LADDERS

Custom access and safety features for the way you use the dock.

BUMPERS & CLEATS

Practical finishing details for docking and everyday use.

LANDINGS & PLATFORMS

Integrated areas for seating, boarding and shoreline connection.

PWC & KAYAK ACCESS

Solutions for personal watercraft, kayaks and paddleboards.

THE RIGHT DESIGN. THE RIGHT MATERIALS. THE RIGHT CRAFTSMANSHIP.

Every dock is matched to the property, the user and the application.

STONE OR ALUMINUM

WATER ACCESS

SAFE, DURABLE SHORELINE ACCESS

Custom designed around your grade, shoreline and preferred materials.

CHOOSE THE SOLUTION THAT FITS YOUR PROPERTY

NATURAL STONE STEPS

A substantial, landscape-integrated option for properties where natural stone complements the shoreline.

- Natural appearance
- Durable shoreline connection
- Custom step layout
- Optional railings

ALUMINUM + THRUFLOW

A clean, low-maintenance stair system with open decking, custom landings and railing options.

- Corrosion-resistant aluminum
- Low-maintenance decking
- Custom landings and railings
-

FROM THE YARD TO THE WATER - ONE COMPLETE ACCESS PLAN.

Ask about railings, platforms, dock connections and integrated shoreline details.

STEEL SHEET PILING SEAWALLS

**STRONG.
BUILT TO LAST.**

A durable shoreline solution designed for strength, stability and long-term performance.

WHAT A SHEET PILING SYSTEM CAN PROVIDE

SUPERIOR STRENGTH

A continuous steel wall built to resist demanding shoreline conditions.

SHORELINE STABILITY

Helps retain the shoreline and create a defined waterfront edge.

LONG-TERM DURABILITY

A robust structural solution suited to long-term waterfront use.

CLEAN FINISH OPTIONS

Cap details, shoreline grading and integrated access can complete the installation.

DESIGN NOTE

Final wall configuration depends on shoreline conditions, elevations, access, engineering requirements and the desired finished waterfront.

ACCESSORIES & INSTALLATION

FINISH THE SYSTEM AROUND HOW YOU USE THE WATER

LADDERS

Spring-assist and custom marine access options.

STAIRS

Aluminum stair systems for shoreline and dock access.

RAILINGS

Aluminum and stainless cable railing solutions.

PWC SOLUTIONS

Lifts, shore ramps and boarding options.

RACKS

Paddleboard and kayak storage solutions.

DOCK HARDWARE

Bumpers, cleats, controls and finishing accessories.

OUR PROCESS

1

CONSULT

Discuss the boat, shoreline, water depth and how the property is used.

2

SITE REVIEW

Confirm access, elevations, layout constraints and product fit.

3

DESIGN

Match the materials and configuration to the application.

4

FABRICATION

Prepare components and coordinate project timing.

5

INSTALLATION

Complete the installation and final system setup.

ONE CONTACT. ONE PLAN. COMPLETE WATERFRONT SOLUTIONS.

From product selection through installation, Premier Solutions keeps the project focused and practical.
